Understanding Banner Transaction Codes

Encumbrance
An Encumbrance is money reserved to pay a future expense. This can be money to pay a vendor using purchase orders and invoices or money to pay employees through Labor Encumbrances. No check is issued when an encumbrance is created and no payment is made, it is only a commitment to pay. The transaction changes from an Encumbrance to an Invoice when it is paid.

Encumbrance Queries using WebApps
- Vendor/Encumbrance History
- Open Purchase Orders
- Document History
- Purchase Order Detail
- Encumbrance Detail

Document Code Examples
- General PO’s: PO######
- Chemistry PO’s: POS#####

- Travel Encumbrances: T###### or E######
- Rice MarketPlace: X#######

Transaction Code Examples
- PORD = Issue Purchase Order
- CORD = Canceled Purchase Order
- Exx = Encumbrance

Salary Encumbrances
Salary encumbrances are based on the personnel action job information set up by Payroll. They calculate the remaining salary for employees to be charged to the fund and orgn through the end of the fiscal year or budget period. Salary encumbrances are account code 6xxxxx.

Procurement at Rice using Rice Marketplace
Rice Marketplace is a system used to purchase goods from key suppliers. More information about how to obtain an account and the suppliers used can be found on the Procurement site at http://www.procurement.rice.edu/

Invoices
An Invoice is a check issued to a vendor or person (non-payroll). Invoice payments can be complete or partial. Multiple invoices and payments are possible on the same purchase order.

Invoice Queries using WebApps
- Vendor/Invoice History
- Document History
- Invoice Detail
- Purchasing Card Vendor/Invoice Query
Banner Transactions
Banner Terminology & Edgar Web Applications

Document Code Examples
- Invoices for Payments = I############
- Invoices entered online = IW############
